## ORDER OF THINGS

OUR COUNTY CITIZENS MUST BE  
UP AND DOING.

Good Conditions and New People Will  
Cause an Awakening--What the  
Deserted Law Requires.

It is high time the people of the  
country adapt themselves  
to a new order of things. We are  
now faced with conditions  
which five years ago were consider-  
able; but, considered in the  
future. The public lands of great  
valley in the hands of  
homesteaders and being cul-  
tivated successfully. Just picture  
that Harney Valley as she is  
now and think back even the  
space of four years and see  
how. Then any of us could  
have the pick of practically the  
valley for a homestead. Can  
we do better?

A year from today--just one  
year--we'll see even a greater  
than in the past four. The  
time has a homestead til-  
and may consider himself for-  
merly.

What's more, it must be  
one of the exclusion of all  
sheds. He must comply  
with every particular for  
and is too valuable to take  
on losing not only the land  
but homestead right as well.  
may all have our opinion of  
and could in most instances  
especially make it ap-  
pear own particular case--but  
the other fellow ready to  
be homestead when we fail to  
in our end of the contract  
hole him. The past prac-  
tices gone and cannot be cited  
as precedents. We are now deal-  
ing with the present and future.  
After his distasteful or rather  
and lacking, from our  
point, the land laws are, we  
business governed by them  
and conform to them if we  
want to our land.

Years ago we were dealing  
with the conditions in this sec-  
ond people were not expected  
more than was absolutely re-  
quired to make proof. The law re-  
quires as much then as  
the public didn't. The  
moment has awakened to the  
fact that our public lands must  
be acquired and held for  
home builders, therefore is  
not the future to rely upon the  
old practices of the past, to  
title to their land by stretch-  
ing truth and only partial com-  
pliance with the law, relying upon  
the influence of the government  
and the government reckons with new  
immigration that  
thinks the contest over  
desirable land where  
homestead is not strictly compli-  
cated by the law. A contest starts  
when grounds would doubt  
if sustained by the evidence  
of first entryman would sacri-  
fice right, time and money to  
a new-comer.

The benefit of our readers we  
are following from the latest  
issued by the general land  
law. Settler must, within six  
years after making his entry, es-  
tablish his actual residence upon  
the land and must reside upon  
the land continuously in  
conformity with the law for the  
five years. Occasional vis-  
its and more in six months  
do not constitute resi-  
dence. The homestead party must  
improve and cultivate it.  
Conditions: "Parties com-  
mencing homestead entries can not  
be freed from any cause for fail-  
ure to improve and cultivate  
the land for the required period,  
unless obliged to make proof  
at the time in which communi-  
cation is allowed, and when such  
compliance full compliance with  
the law must be satisfactorily  
shown."

All that Oregon has asked in the  
past or intends to ask from the fu-  
ture sessions of Congress relating  
to reclamation work, is that she  
receive from the fund an annual  
allowance based upon her pro rata  
contribution to the fund. Under  
the present apportionment she re-  
ceives about one-eighth of the  
amount she is entitled to, while  
other Western States which through  
their bulls with Secretary Hitch-  
cock, have been able to look the  
fund almost at will, are allowed  
many times their equitable share.

Senator Fulton will also ask the  
commercial bodies of Portland to  
assist him in his efforts to persuade  
the heads of the reclamation service  
to have all development work done

## TO LOOK AT BUILDING SITES

## JEFFERSON MYERS DEPARTS FOR OLD VIRGINIA.

GOES TO CONFER WITH OFFICIALS OF JAMESTOWN EXPOSITION--NORTHWESTERN BUILDING IDEA PROVING POPULAR.

Enthusiastic over the favorable  
outlook for the construction of a  
"Northwestern States" building at  
the coming Jamestown exposition,

Jefferson Myers, president of the  
Oregon-Jamestown exposition com-

mittee, left on the overland train

last night for Norfolk, Virginia,

to make a careful investigation of

the best sites obtainable for the  
proposed building, says the Jour-

nalist.

10. When an entry embraces un-  
surveyed lands, or embraces a tract  
which forms a fractional part of a  
quarter quarter section--40 acres--  
or embraces a fractional part of a  
loted subdivision of a surveyed  
section, the entryman must cause  
such unsurveyed lands of such  
fractional parts to be surveyed by  
or under the direction of the United  
States surveyor general at some  
time before he applies to make final  
proof; but when all of any platted  
subdivision of a surveyed section is  
embraced in his entry he will not  
be required to resurvey such technical  
legal subdivision.

11. The communication provisions  
of the homestead laws do not apply  
to entries made under this act, but all entrymen must make final  
proof of residence and cultivation  
within the time, in the manner and  
under the notices prescribed by the  
general provisions of the homest-  
ead laws, except that all entrymen  
who are required by the preceding  
paragraph to have their lands  
surveyed may, at any time, file a  
copy of the notice of such survey  
and name therein the sixty-first  
day after the day on which  
the list is filed by them as the date  
on which the lands listed therein  
will be open to settlement and en-  
try under the homestead laws.

12. In all cases where a survey  
of any portion of the lands embrac-  
ed in an entry made under this act  
is required the register will in addi-  
tion to publishing and posting the  
usual final proof notices, keep a  
copy of the final proof notice with a  
copy of the field notes and the plat  
of such survey attached posted in  
his office during the period of pub-  
lication, and the entryman must  
keep a copy of the final proof  
notice and a copy of the plat of his  
survey prominently posted on the  
lands platted for at least 30 days  
prior to the day on which he offers  
to make his final proof, and at the  
same time issue notices of such  
survey and name therein the sixty-  
first day after the day on which  
the list is filed by them as the date  
on which the lands listed therein  
will be open to settlement and en-  
try under the homestead laws.

13. This does not apply to any  
lands situated in the counties of  
Inyo, Tulare, Kern, San Luis Obispo,  
Santa Barbara, Ventura, Los Angeles,  
San Bernardino, Orange, Riverside,  
and San Diego, in the state of California,  
and entries made for lands in the Black Hills  
forest reserve can only be made  
under the terms and upon the con-  
ditions prescribed in sections 3 and  
4 of this act.

14. This act does not authorize  
any settlement within forest reser-  
ves except upon lands which have  
been examined and listed and then  
only in the manner mentioned above,  
and all persons who attempt to make any  
unauthorized settlement within  
such reserves will be considered  
trespassers and treated accord-  
ingly.

Danger from the Plague.

There's grave danger from the  
plague of coughs and colds that are  
so prevalent, unless you use Dr.  
King's New Discovery for con-  
sumption, coughs and colds. Mrs.  
Tina, Walls of Forest City, Me.,  
writes: "It's a Godsend to people  
living in climate where coughs and  
colds prevail, I find it quickly ends  
them. It prevents Pneumonia,  
cures La Grippe, gives wonderful  
relief in Asthma and Hay Fever,  
and makes weak lungs strong  
enough to ward off consumption,
